

Multi-Function tool extracts drive tools and load locks the anchor system. Available with a load cell for immediate testing. Ideal for orchard, vineyard and erosion control applications.

## FEATURES / BENEFITS

- Jaw and lever mechanism makes easy work of extraction
- Pulls straight up and extracts without bending
- Eliminates side loading and resulting strain on operator's back
- Eliminates heavy machinery
- Saves labour by making it a one-person job
- Extractor made from heavy gauge steel plate and tubing
- Gripping jaws made from case hardened AR400 steel that will last for thousands of pulls
- The sturdy lever arm gives you a 16 to 1 mechanical advantage
- Light weight 12 kg only

## APPLICATIONS

Drive Rod removal up to 25 mm diameter

Load-locking the Terra-Lock for Civil applications

Load-locking the Anchor using the Loop Puller for Vineyard and Orchards trellising
